DIAVI TECH

Hiring Manager

With this letter, I am applying for the position of Product Asset Maker at DIAVI TECH COMPANY. As an Informatics Engineering student at Universitas Muhammadiyah Sorong, I have a great interest in creating quality products that support the growth of the company.

During my studies, I was actively involved in various projects that trained me to develop creativity, precision, and technical skills. One valuable experience was when I worked on a technology-based design project, where I succeeded in creating a solution that not only met the needs, but also increased the aesthetic value of the product.

In addition, I have experience in utilizing various software for digital asset creation. These skills, coupled with my ability to work in an organized manner, allow me to complete work on time and with maximum results. I believe that attention to detail and commitment to quality are important in every job.

I am attaching a CV containing more complete details about my educational background and experience. I hope to contribute to the innovation and development of DIAVI TECH COMPANY through my creative ideas and ability to produce high-quality products.

Thank you for your attention and time to consider my application. I am very enthusiastic to discuss further about my potential contribution to this company. I can be contacted via the phone number or email listed above.

Sincerely,

Ghirdy Patrick Toshka Anggawan
